'INSURGENTS' SCORE VICTORY BY ELECTING W. R. FARRINGTON MERCHANTS' ASSN. PRESIDENT

The "insurgent" party of the Merchants' Association scored another point yesterday afternoon when, at the initial meeting of the new board of directors, W. R. Farrington was elected president of the organization to serve during the coming year or until the proposed consolidation of that body with the Chamber of Commerce is effected. The other candidate for the presidency was Ed Towse, he being defeated by a vote of five to four. Otto A. Bierbach was elected vice-president; J. T. Warren, secretary, and Robert B. Booth, treasurer.

"Whatever we do here, I hope we will keep good natured," said Mr. Farrington prior to his election to the presidency. Chairman Norman Watkins of the nominating committee presided at the election, turning the chair over to Mr. Farrington upon the election of the president. Mr. Farrington first took up the matter of the standing committee, pointing out that, while it was his belief that the members of the directorate should volunteer to serve on committees working along lines which might be of special interest to them, he would defer the appointment of committees until he could take the matter up more thoroughly at another meeting of the directors. His opening address to the members was brief but to the point. He stated that the important matter now in the hands of the directorate was the consideration of the proposed amalgamation which would bring about a greater and more representative commercial organization for Honolulu. The committee appointed some months ago to take up the matter of a revision of the by-laws of the association was discharged with thanks, it having been reported that little had been done to date.

A resolution passed by the old board providing for the appointment of a committee to investigate the feasibility

of an advertising campaign with regard to home buying, was upheld by the new board, the president being authorized to appoint at an early date a committee to work along this line. The previously appointed committees on the merchants' float for the Floral Parade and for the reception of the officers of the Matsonia were continued. Another committee continued was that headed by George Guild, which has in hand the matter of inviting the international fleet to Honolulu after its participation in the 1915 exposition.

Ed Towse was the father of a resolution that the new board of directors go on record as having made its first business that of a consideration of the proposed amalgamation of the Chamber of Commerce and the Merchants' Association, and that the president appoint a committee to act with a similar body from the chamber to arrange the by-laws for the proposed new organization. President Farrington will appoint this committee probably after a consultation with President G. R. Carter of the Chamber of Commerce. According to the resolution, it is the sense of the Merchants' Association that the amalgamation be effected by March 31.

J. T. Warren, George A. Brown and S. S. Paxson were appointed a committee to secure February 21 as a business holiday. James D. Dougherty, director-general of the 1914 carnival, was present at the meeting and pointed out that on that day there will be a number of features, especially the Floral Parade. The last business of the directors was to change the date of the monthly meeting from the third Thursday to the third Wednesday, and it was voted that the directors meet at the Commercial Club every Thursday noon for lunch and for an unofficial discussion of matters pertaining to the work of that body.

PREDICTS CORN AS BIG HARVEST FOR THE FARMER

Dr. E. V. Wilcox, agent in charge of the federal experiment station, sees corn coming into its own in Hawaii. Corn will be one of the large crops here, according to Dr. Wilcox. He says:

"Corn is coming into its own in Hawaii. The territorial marketing division finds that it can sell 15 tons of corn per week at \$40 per ton or better. This is nearly \$15 per ton above the farm price of corn on the mainland. But a thorough shakedown of the corn business is needed. In getting a fresh start in agriculture in Hawaii attention should be given chiefly to plain, ordinary farming—to raising things to eat. Put corn at the head of the list. There is no crop equal to it as food for man and beast. Recent repeated experiments have shown that it is superior to wheat, barley or rice. There is no other grain on which animals can be raised from weaning to maturity without balancing the ration with other feed. I recently saw fine healthy hogs which had tasted nothing but corn and water from the time their mothers weaned them; while other hogs, fed on wheat or barley, were half-size and sickly. Corn is sometimes said to be 'heating' as a horse feed. But there are thousands of sleek horses in the hottest parts of the South, which never say any other grain than corn."

"It is curious that in Honolulu corn should be thought good for chickens only. Corn beats barley for horses any day. But until corn is fed more extensively to other animals than chickens, don't raise any corn except varieties with small kernels and of rich yellow color. Big-kernel corn can hardly be sold at any price in Honolulu."

"The farmers of Hawaii should raise what is needed for food in Hawaii. Make corn one of the main things. Horses, cattle, pigs, chickens and turkeys will rise up to bless you for it. And why forget man? Why not have a mill to make corn meal? Did you ever hear of a man who would turn up his nose at cornmeal mush, Johnny cake, corn pone or hominy? Or have you ever heard of a case of beri beri or malnutrition in corn-eaters? The malnutrition of the middle states are the standard of human perfection. If the Orientals would eat corn in place of rice, they would have better bone and muscle, and would become Americanized sooner."

"A Little Rock editor once said that Arkansas produced corn of such virtue that whiskey made from it tasted just as good coming up as going down. The Hawaii brand of corn is equally good. But when young pigs sell at 30 cents per pound, and chickens and turkeys at 35 cents, it pays better to transform corn into meat and padding for human ribs. Judged by mainland standards, Hawaii should have 100,000 acres of corn. With a little patch of corn like that 'in our midst,' Australian meat, Japanese rice and mainland cold-storage poultry could stay at home to feed other hungry mouths."

It has been demonstrated that overgrazed stock ranges on the national forests can be brought back to use under a system of regulated grazing faster than if they are left unused.

CADETS CAPTURE INITIAL SOCCER LEAGUE CONTEST

By the close score of 2 to 1 the Kamehameha soccer eleven won the first game of the 1914 interscholastic series from the Mills' team yesterday afternoon, on the Punahou campus. The game was fast and furious, and it was not until the referee blew his whistle for the last time that the cadets were sure of a victory. With a strong, cool breeze blowing down off Rocky Hill, and a dry field, the players had the advantage of the best kind of weather for soccer, and it was with a run and a jump that the game was started.

All the scoring was done in the first period, although the Mills men came very near the cadets goal in the last half, and the Kam men did the same at times. The ball never remained in one place very long and it was first a Mills forward who carried the ball way down the field and then a Kamehameha forward who turned the same trick. Although the interscholastic players did not show the class that is common in the major soccer league, they kept things moving and got in some good kicking and dribbling.

For the Kams, Naphtha and Makanihi excelled, the latter at right wing carrying the ball nearly half the length of the field at times bringing it right under the blue and red goal. The Kams had the advantage over their small opponents of possessing the most weight and speed and it was seldom that the Mills man did not fall when two opponents collided.

Although the Mills put up the gamest sort of a fight they were not able to score that goal which they wanted so badly. Captain Takeuchi was right after his men all the time, besides playing in good form himself. Kawelo also got in some good work on his side at wing, and was well supported by the rest of the forward line. The losers found it hard getting past the heavy cadet full backs, and it was only through the slickest playing that they were put in shooting distance of the net.

Catton referred the game to the liking of both teams. He proved to be very strict on fouls and off sides, often stopping the ball when it was right under the goal.

The lineup were as follows:

Kamehameha	Mills
Correa	Left Wing
Makanani	Right Wing
F. Shipman	Inside Right
C. Mitchell	Inside Left
A. Mitchell	Center Forward
Hips	Right Half
Kama	Left Half
Napihaa	Center Half
J. Shipman	Left Full
Ioane	Right Full
Bertleman	Goal Keeper
Referee:	Catton.
Final score:	Kamehameha 2, Mills 1.
Other Game Postponed.	

The league game between the Punahou and St. Louis team, at Athletic Park yesterday, was called off on account of uncertain weather conditions, and the poor condition of the playing field.

John D. Rockefeller gave \$7000 to his church in Cleveland, according to a pledge made some months ago to contribute \$1 for every 40 cents from the remainder of the congregation.

Two hours after the opening of Rufus F. Dawes' hotel for unemployed in Chicago it was filled to its capacity. It provides lodging for 395 men.

Miss Fern Hobbs, private secretary to Governor West of Oregon, has gone to Copperfield to close up the saloons in accordance with the governor's orders.

Five hundred unemployed men marched down the Chicago business streets demanding "work, not charity."

The queen of Bulgaria has asked the American Red Cross for relief for refugees left destitute by the Balkan wars.

Hanan Shoes

There was never a time when HANAN stamped on a shoe meant anything less than the best possible at that time; nor has there ever been an improved process of shoemaking discovered that has not been adopted by HANAN.

—no matter how great the cost.

Are you familiar with the complete manner in which we carry this famous make of shoes? No detail overlooked—shape, style and leathers to satisfy every man's shoe fancy.

The inside of a Hanan has all the superior finish that distinguishes the outside—it's one of the features of a Hanan Shoe. Get your foot inside of one and prove the claim.
